EXECUTIVE DECISION BRIEF

SHEQ / HSE / HSSE LEADERSHIP · 12+ YEARS · VIETNAM INDUSTRIAL OPERATIONS

WHO I AM

Industrial HSE/SHEQ leader with 12+ years across refinery and petrochemical construction, footwear manufacturing, and edible-oil operations in Vietnam. I build practical operating governance that connects risk identification, critical controls, legal compliance, fire and emergency readiness, field verification, and management assurance.

WHY INTERVIEW ME

Three industrial worlds

HSSE Manager on Nghi Son refinery and petrochemical construction; HSE Manager at Annora footwear manufacturing; SHEQ Manager at NORTALIC edible-oil manufacturing.

Evidence-led leadership

Candidate-provided operating record includes a 30% lower accident rate at Annora, an 8-year accident-free record at NORTALIC, and 7M+ safe working hours without LTA in the applicable record.

Operating governance

Experience establishing procedures, plans, site controls, reporting rhythms, assurance routines, emergency preparedness, audit readiness, and corrective follow-through.

Digital HSE differentiator

Founder of two live products that show how SHEQ governance can become visible, traceable, owner-led operating work—not merely a static compliance register.

SELECTED LEADERSHIP RECORD

SHEQ Manager

Oct 2018 — Present

North Continental Oils & Fats Vietnam (NORTALIC) — Musim Mas Group

Thanh Hoa, Vietnam

- Lead integrated Safety, Health, Environment, Quality, and Fire Prevention & Fighting governance for a vegetable-oil manufacturing operation.
- Establish and maintain SHEQ procedures, annual plans, operating standards, legal-compliance reviews, fire-system inspections, emergency drills, internal audits, and audit readiness.
- **Operating context:** approximately 300 employees; HSE team size and budget authority **[TO BE CONFIRMED]**.

HSE Manager

Aug 2017 — Sep 2018

Annora Vietnam Footwear

Vietnam

- Led HSE execution in a high-volume footwear manufacturing environment serving Nike/global sportswear supply chain.
- Directed workplace safety, fire and explosion prevention, health protection, and environmental controls; established HSE supervision, weekly reporting, machine risk assessment, and safety communication.
- **Operating context:** approximately 30,000-worker environment; reporting line and HSE team size **[TO BE CONFIRMED]**.

HSSE Manager

Jul 2014 — Jun 2017

LILAMA CORP — Nghi Son Refinery & Petrochemical Project

Thanh Hoa, Vietnam

- Managed site HSSE supervision in a refinery and petrochemical construction setting; coordinated contractor safety activities and incident-response discipline.
- Developed HSSE supervision procedures, training plans, safety meetings, and weekly management reporting.
- **Project context:** 10-million-tonne annual design processing capacity; contractor and site scale **[TO BE CONFIRMED]**.

SELECTED PERFORMANCE EVIDENCE

- **30% lower occupational accident rate at Annora** — Candidate-provided operating metric; HSE Manager context, Aug 2017–Sep 2018. Evidence available on request.
- **8-year accident-free operating record at NORTALIC** — Candidate-provided operating metric; SHEQ Manager context, 2018–present operating record. Validation context available on request.
- **7M+ safe working hours without LTA** — Candidate-provided operating metric in the applicable operating record; not independently verified.

HOW I THINK ABOUT HSE

Different industries create different hazards. The management challenge is consistent: identify what matters most, establish effective controls, make ownership visible, verify execution, and learn from deviations.

Management philosophy, not an official company methodology.

TRANSFERABLE HSE OPERATING MINDSET

RISK → CONTROL → OWNERSHIP

Convert operating risk into critical controls and named accountability.

DEVIATION → LEARNING → IMPROVEMENT

Use incidents, inspections, audits, and observations to improve the operating rhythm.

FIELD VERIFICATION → ASSURANCE

Test whether work is executed as designed, then raise meaningful signals to management.

DIGITAL HSE → GOVERNED USE

Use digital tools and AI to accelerate review, traceability, and follow-through; professional judgment remains decisive.

DIGITAL HSE & AI / LIVE FOUNDER EVIDENCE

Founder / Product Builder, SHEQ Command Center (sheqvn-dash.vercel.app)

Live product evidence

- Live founder-built application for incidents, risks, audits, CAPA, and compliance evidence in one accountable operating flow. **Illustrative workflow scenario**: weekly control-status pack from 45–60 to 15–20 minutes (≈67% faster); requires site timing and quality validation.

Founder / Product Builder, ActLegal — Compliance Action Map (actlegal.vercel.app)

Live product evidence

- Live founder-built application converting regulatory change into impact review, accountable owners, due dates, control actions, and completion evidence. **Forecast scenario**: first-pass legal review from 60–90 to 15–25 minutes (≈73% faster); not a measured result.

SELECTED CREDENTIALS, EDUCATION & LANGUAGES

- ISO 9001:2015 Quality Management System Foundations; OHSAS 18001:2007 & ISO 14001:2015; ISO 22000:2018; 30-Hour OSHA Construction Safety and Health; Construction Site Fire Safety Manager; Scaffolding Inspector.
- Strategic Leadership and Management (University of Illinois Urbana-Champaign / Coursera); Generative AI for Executives and Business Leaders (IBM / Coursera).
- Hanoi University of Mining and Geology, 2007–2012. Vietnamese (native) and English: professional communication; technical and commercial document comprehension.
