01 — EXECUTIVE PROFILE

HSE / SHEQ MANAGER · 12+ YEARS HSE / SHEQ LEADERSHIP · VIETNAM INDUSTRIAL OPERATIONS

Experienced industrial HSE/SHEQ leader with 12+ years across refinery and petrochemical construction, footwear manufacturing and edible-oil manufacturing in Vietnam. I combine practical operating governance, risk management, legal compliance, safety management systems, fire and emergency readiness, continuous improvement and hands-on Digital HSE / AI capability.

CAREER AT A GLANCE

2014–2017

HSSE MANAGER

Refinery & Petrochemical Construction

2017–2018

HSE MANAGER

Footwear Manufacturing

2018–PRESENT

SHEQ MANAGER

Edible-Oil Manufacturing

THREE INDUSTRIAL ENVIRONMENTS

REFINERY / PETROCHEMICAL

High-risk construction, contractor coordination and complex site HSSE exposure.

FOOTWEAR MANUFACTURING

Large workforce, machinery risk, production intensity and workforce communication.

EDIBLE-OIL MANUFACTURING

Integrated SHEQ governance, fire prevention, compliance, emergency readiness and management assurance.

CORE MANAGEMENT SCOPE

Risk Management · SHEQ Governance · Legal Compliance · Safety Management Systems · Fire & Emergency · Audit & Assurance · Workforce Capability · Continuous Improvement · Digital HSE / AI

NORTALIC OPERATING CONTEXT: approximately 300 employees. HSE team size and budget authority [TO BE CONFIRMED].

02 — EXPERIENCE & SELECTED RESULTS

Has he actually done the job? Selected roles, ownership and operating evidence.

SHEQ Manager

Oct 2018 — Present

North Continental Oils & Fats Vietnam (NORTALIC) — Musim Mas Group *Thanh Hoa, Vietnam* **Operating environment:** edible-oil manufacturing · approximately 300 employees.

Leadership scope: integrated SHEQ governance, Fire Prevention & Fighting, legal compliance, audit / assurance, emergency readiness and management engagement.

- Established and maintained SHEQ procedures, annual plans and operating standards; led legal compliance reviews and audit readiness.
- Led fire-system inspections and emergency drills; supported management review, corrective-action follow-through, workforce capability and safety communication.
- **Selected result: 8-YEAR ACCIDENT-FREE OPERATING RECORD.**

Evidence status: Candidate-provided operating record.

HSE Manager

Aug 2017 — Sep 2018

Annora Vietnam Footwear *Vietnam* **Operating environment:** footwear manufacturing · approximately 30,000-worker operating environment.

Leadership scope: HSE management, machine risk assessment, safety communication, HSE procedures, machine-guarding follow-through and reporting.

- Led workplace safety, health, environmental and fire controls; established HSE supervision and weekly reporting.
- Led machine risk assessment, safety communication and follow-through on practical control actions.
- **Selected result: 30% LOWER OCCUPATIONAL ACCIDENT RATE.**

Evidence status: Candidate-provided operating metric.

HSSE Manager

Jul 2014 — Jun 2017

LILAMA CORP — Nghi Son Refinery & Petrochemical Project *Thanh Hoa, Vietnam* **Operating environment:** refinery & petrochemical construction · 10-million-tonne annual design processing capacity as project context.

Leadership exposure: HSSE supervision, contractor coordination, incident-response discipline, safety meetings, training plans and weekly management reporting.

- Managed site HSSE supervision and contractor safety coordination; developed HSSE procedures, training plans and safety meetings.
- **Selected result / evidence: 7M+ SAFE WORKING HOURS WITHOUT LTA.**

Evidence status: Candidate-provided operating record; applicable operating record.

03 — HSE LEADERSHIP & OPERATING MINDSET

“I do not manage isolated HSE activities. I manage a risk-control system.”

Illustrative management thinking model — adapted to site methodology.

RISK-CONTROL OPERATING FLOW

01 BUSINESS / OPERATIONS	02 LEGAL & REGULATORY REQUIREMENTS
03 RISK IDENTIFICATION	04 CRITICAL CONTROLS
05 OWNERSHIP	06 FIELD VERIFICATION
07 PERFORMANCE DATA	08 MANAGEMENT DECISION
09 CORRECTIVE ACTION	10 CONTINUOUS IMPROVEMENT

THREE INDUSTRIAL WORLDS → ONE TRANSFERABLE HSE OPERATING MINDSET

Refinery / Petrochemical → high-risk construction + contractor complexity

Footwear Manufacturing → large workforce + machinery + production intensity

Edible-Oil Manufacturing → integrated SHEQ + fire + compliance + emergency

WHY INTERVIEW ME

01 12+ years across multiple industrial HSE/SHEQ environments.	02 Hands-on HSE/SHEQ management experience, including an approximately 300-employee manufacturing environment.
03 Systems-based approach to risk, compliance, critical controls, field verification and continuous improvement.	04 30%, 8-year and 7M+ operating records, clearly labelled by evidence status.
05 HSE leadership with hands-on Digital HSE / AI capability, including live founder-built products.
